Cooperative Association

Kyushu Economic Federation (Kyukeiren), founded in 1961, is a regional, integrated economic organization with companies having offices in Kyushu and Yamaguchi. The major achievements so far are an establishment of the Kyushu Tourism Promotion Organization, suggestion for the realization of decentralization reform, enforcement of the competitiveness for local industry and construction of Higashi Kyushu Expressway and Kyushu Shinkansen.

While supporting the economic exchange as well as an export expansion of agricultural/ marine products between Asian countries, the Federation is aiming to be a leader for the development of service industry in supporting the development of infrastructure to welcome more foreign visitors.

Furthermore, with consideration of inviting business events into whole Kyushu area, which can contribute the promotion of industry, Tourism Committee of Kyushu Economic Federation is proceeding with countermeasures to invite business related events with a newly established Kyushu Business Event Working Committee. As listed here, some of 1,000 member companies that belong to our network have made their facilities open to visitors.
